

# Calculus with Analytic Geometry I

## MAC 2311 Lecture

4 Credit Hours

Spring 2024

Instructor: Dr. John Streese  
Office: LIT 324  
E-mail: jstreese@ufl.edu

Office Hours: LIT423  
Mondays: 11:45am - 12:35pm  
Wednesdays: 12:50pm - 1:40pm  
Thursdays: 11:45am - 12:35pm

### Main Lecture:

MWF Period 3 (Streese) (9:35 AM - 10:25 AM) CAR 100

Discussion Section	Time	Location	TA
0822	R Period 3 (9:35 AM - 10:25AM)	LIT 235	Cho
1611	T Period 3 (9:35 AM - 10:25AM)	LIT 233	Jansen Van Rensbug
161D	T Period 3 (9:35 AM - 10:25 AM)	LIT 223	Adarykov
3076	R Period 3 (9:35 AM - 10:25 AM)	LIT 223	Alqasem
3078	R Period 3 (9:35 AM - 10:25 AM)	LIT 221	Sengupta
5962	T Period 3 (9:35 AM - 10:25 AM)	LIT 221	Connell
5963	T Period 3 (9:35 AM - 10:25 AM)	LIT 221	Azizi
6510	R Period 4 (10:40 AM - 11:30 AM)	MAT 9	Alqasem
057E	T Period 5 (11:45 AM - 12:35 PM)	LIT 235	Jansen Van Rensbug
6462	T Period 5 (11:45 AM - 12:35 PM)	LIT 223	Adarykov
7445	R Period 5 (11:45 AM - 12:35 PM)	MAT 5	Cho
3069	T Period 6 (12:50 PM - 1:40 PM)	LIT 223	Azizi
3073	T Period 7 (1:55 PM - 2:45 PM)	LIT 219	Connell
169H	UF ONLINE		Streese/Alamoudi
187F	RESIDENTIAL ONLINE		Streese/Alamoudi
1772	DUAL ENROLLMENT		Streese/Alamoudi

**Prerequisites** Any of the following: Minimum acceptable score on the online mathematics placement exam (ALEKS), which is a 76 or higher; a grade of *C* in a MAC course numbered 1147 or higher; AP credit for MAC2311; IB credit for a MAC course numbered 1147 or higher. Any course grades, AP, or IB scores used to meet this prerequisite must be on file at UF by registration.

**Course Description** MAC 2311 is the first semester in the three-semester sequence MAC 2311, MAC 2312, MAC 2313 covering basic calculus. The course consists of analytic geometry; limits; continuity; differentiation of algebraic, trigonometric, exponential and logarithmic functions; applications of the derivative; inverse trigonometric functions; differentials; introduction to integration; and the fundamental theorem of calculus. (M) Credit will be given for, at most, one of MAC 2233, MAC 2311 and MAC 3472. MAC2311 credit will also provide credit for MAC2233, but not the other way around.

**General Education Objectives and Learning Outcomes** This course is a mathematics (M) course in the UF General Education Program. Completing this course with a minimum grade of C will satisfy the student's State Core Mathematics requirement of the UF General Education Program. Courses in mathematics provide instruction in computational strategies in fundamental mathematics including at least one of the following: solving equations and inequalities, logic, statistics, algebra, trigonometry, inductive and deductive reasoning. These courses include reasoning in abstract mathematical systems, formulating mathematical models and arguments, using mathematical models to solve problems and applying mathematical concepts effectively to real-world situations.

After successful completion of this course students will have demonstrated competency in the following Student Learning Outcomes (SLOs):

- **Content:** *Students demonstrate competence in the terminology, concepts, theories, and methodologies used within the discipline.* After completing this course students will gain a knowledge of limits, differentiation, and integration.
- **Communication:** *Students communicate knowledge, ideas, and reasoning clearly and effectively in written and oral forms appropriate to the discipline.* Throughout this course students will communicate mathematical ideas verbally in their discussion sessions and as well as through writing on discussion quizzes and exams.
- **Critical Thinking:** *Students analyze information carefully and logically from multiple perspectives, using discipline-specific methods, and develop reasoned solutions to problems.* Students will apply their knowledge to solve problems concerning topics that include, but are not limited to, differentiation techniques, calculation of exact areas under curves, application of rates of change to physical examples of position, velocity and acceleration, identifying the limit of various functions, using the derivative as a tool for approximation through differentials and linear approximation, among countless other applications.

**Required Materials** There are no required textbooks for this course. We will make use of a free online textbook available at [Openstax Calculus Volume 1](#) as well as Stewart Calculus. A link to both are provided on our Canvas homepage. Also, in this course we will use the online platform Xronos which has been developed at UF and is supported by the Office of the Provost and the College of Liberal Arts and Sciences. Xronos is accessible through the Canvas site. More details will be given in class.

**E-Learning Canvas:** E-learning canvas, a UF course management system, is located at [elearning.ufl.edu](http://elearning.ufl.edu). Use your Gatorlink username and password to login. All course information including your grade, course homepage, syllabus, lecture outlines, office hours, test locations, mail tool, discussion forum, free help information, etc. can be accessed from this site.

You are responsible for verifying that your grades are accurate. **You have one week after a score has been posted to contact your TA if you believe there has been a recording error. There is no grade dispute at the end of the semester.**

**Please note:** Important course information is clearly communicated in this course guide, the MAC 2311 homepage and links in Canvas, and announcements in lecture and discussion. Due to the volume of email received by the instructor and TAs, we cannot reply to each request for this well publicized information. If you cannot find your answer in the resources above, there is also a **Discussion Forum** available in Canvas. Please use this to post questions and to supply answers to your fellow students. Primarily, we will use the discussion board to work together on homework problems and studying for the exam. Using these boards presents a bonus point opportunity as well.

#### **E-mail**

All communication between student and instructor and between students should be respectful and professional. All official class communications will be sent only to the ufl.edu addresses. Students are responsible for acquiring, checking their email accounts regularly, and any class information sent to their ufl.edu account. Please be sure to sign your name to your e-mails.

#### **Lectures**

**The in-person sections of this course** meet for in-person 50-minute lectures in Carleton Auditorium 100 Mondays, Wednesdays, and Fridays from 9:35 am - 10:40am. Along with this, you will meet with your discussion leader once a week, either on a Tuesday for Thursday for one period a week. In your discussion class, you will (usually) take a weekly quiz. Therefore, attendance to discussion sections is mandatory, and a great way to review the past week's material. Attendance to the lectures in Carleton are **strongly** encouraged, since missing just a few will put you behind in the class. We will also use Carleton auditorium to review for exams the class period before they occur. For online sections of this course, pre-recorded lecture videos will be posted, one corresponding to each of our 32 lecture topics this semester. **The online sections of this course** do not meet for discussion quizzes. However, you are welcome to come to my live lectures in Carleton auditorium (seating is generally always available).

#### **Lecture Quizzes**

After each lecture, you will take a short canvas quiz on the material covered that particular day. The three lowest online lecture quiz grades will be dropped at the end of the semester. You have three attempts on each online canvas quiz.

#### **Discussion Sections (in-person only)**

Discussion sections meet once a week on either Tuesday or Thursday depending on which section you are enrolled in. These meetings give you a valuable opportunity for open discussion of the lecture material and assigned problems in a smaller class setting. **Attendance to discussion class is required for in-person sections as it is where weekly quizzes will take place.** However, one period per week is generally not adequate to answer all questions. Be sure to take advantage of the opportunities outside of class for additional help.

Your main resource is your discussion leader. They will be available during office hours (or by appointment) to answer your questions about the course material. Your TA is responsible for grading and recording all quiz scores. You must retain all returned papers in case of any discrepancy with your course grade. As mentioned above, **you should check Canvas regularly and consult with your TA if you have any questions about recorded grades. All grade concerns must be taken care of within one week of receiving the score.**

If you have concerns about your discussion class which cannot be handled by your TA please contact your instructor.

## Tests

Mid-term exam dates are as follows:

Wednesday, Jan 31, 2024, 8:20PM - 10:00PM

Wednesday, Feb 28, 2024, 8:20PM - 10:00PM

Tuesday, Apr 2, 2024, 8:20PM - 10:00PM

Makeup: (tentative, this is ideally when I want it to be) Apr 24, 6:15 PM - 7:55 PM

Final: Saturday, April 27, 5:30 PM - 7:30 PM

There will be three (paper and pencil) midterms throughout the semester. The midterms will consist of two parts. Part 1 will be multiple choice questions. Part 2 of the midterm exams will consist of free response problems. If you are in an **online section**, these exams will be online assessments.

These midterm exams will take place in the evening, from 8:20 PM to 10:00 PM.

The FINAL EXAM will take place on Saturday, April 27, 5:30PM - 7:30PM.

Each midterm exam is worth 15% of your final grade while the final exam is worth 25% of your final grade. No exam grades will be dropped. **There are no exam retakes.**

## Exam Policy

Please come to the exams prepared with pencils/mechanical pencils and your ID (UFID or other government issue ID). Do not enter the testing room until the proctors have finished setting up the room and allowed you to come in. You may not have your phone out at all during the exam. If you are using your phone during the exam, this will be considered academic dishonesty and the issue will be escalated to the appropriate channels. There are no calculators allowed on exams. Respect other students and the proctors while in the testing room. Any transcription errors that occur on your scantron or free response are there to stay after the exam. These errors include, but are not limited to: bubbling in the wrong form code, not bubbling in your answers, bubbling in the wrong section number, bubbling your answers in the wrong places, leaves answers blank, etc. Providing the wrong information such as your section number or name during an exam may greatly delay the grading of your exam. It is very important that you are aware of what is going on and following directions carefully so no materials are lost and that your exam is graded properly. An exam that is lost due to incorrect bubbling or attending the wrong room will not be the fault of the instructor nor the TA and you may forfeit your grade (receive no credit) for that particular exam.

## **Online Homework**

In this course we will be using the online platform Xronos which is free of charge and will be explained during class. Complete Xronos homework by first navigating to our Canvas page. Once in Canvas, go to the assignments section of canvas and complete assignments directly. There is a slight delay in scores being recorded to Xronos. Be patient as your gradebook will update a little bit every so often until you reach 100 percent for the assignment. Please double-check in the canvas gradebook that your scores are in fact recording. Reach out to me as soon as possible of any technical difficulties that may arise.

Online homework assignments will be assigned throughout the semester, as we progress through material. It is your responsibility to keep up with the work and not fall behind. Please do not wait until the last minute to start your homework.

**No assignments can be submitted after the due date.** There will be a total of **three** dropped Xronos homework grades at the end of the semester.

All assignments will have posted due dates and will follow our pace in the course. Please keep up with the due dates of assignments using canvas.

Personal computer issues are NOT a valid reason for any type of extension. The same is true to multiple assignments being due in other classes at the same time. Manage your time wisely.

**I will not reconcile Xronos technical difficulties and/or accept late Xronos work a week after it is due, so please check your gradebook periodically for issues. This warning includes grading discrepancies at the very end of the semester.**

## **Class Participation**

Attendance in class is strongly recommended and discussion section attendance is mandatory for in-person sections. Students who come to class and participate are more likely to do well in the course.

There will be weekly quizzes during your discussion, based on the homework and classwork. The quizzes will be administered by your TA and any questions about the grades should be directed to him or her. If your TA is unable to address your questions, please contact the course coordinator. Your **two** lowest discussion quizzes will be dropped at the end of the semester.

## **Make-up Policy**

All make-up work must be arranged with the course coordinator.

• **Exam Conflicts - UF during Term Assembly Exam Policy** ([catalog.ufl.edu/ugrad/current/regulations/info/exams.aspx](http://catalog.ufl.edu/ugrad/current/regulations/info/exams.aspx)): “During-term examinations are held during regular class times or during assembly exam periods, which are Monday-Friday from 8:20 - 10:10 p.m. (periods E2-E3) for the fall and spring terms and Monday-Friday from 7:00 - 9:45 p.m. (periods E1-E2) for the summer terms. If other classes are scheduled during an exam time, instructors must provide make-up class work for students who miss class because of an assembly exam. When two exams conflict, assembly exams (multiple sections and enrollment over 300) take precedence over non-assembly exams (single sections and/or enrollment under 300). If two assembly exams conflict, the course with the higher number will take priority. Likewise, if two non-assembly exams conflict, the higher number will again take priority. Instructors giving make-up exams will make the necessary adjustments. Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence. A reasonable amount of time to make up a during-term exam is before the end of the semester in which the student is enrolled in the class.”

If MAC 2311 is the lower course number, students must inform the course coordinator at least ONE WEEK in advance of the exam date so that appropriate accommodations can be made. Otherwise it may not be possible to reschedule.

• **Make-up Exams** If you are participating in a UF sponsored event or religious observance, you may make up an exam only if you make arrangements with the course coordinator during the **FIRST TWO WEEKS OF THE COURSE**. You must present documentation of a UF sponsored event.

**If illness or other extenuating circumstances cause you to miss an exam, contact the course coordinator (no later than 24 hours after the exam) by email. Then, as soon as possible after you return to campus, provide the appropriate documentation to the course coordinator. You will be allowed to sign up to take a makeup exam at the end of the semester.**

• **Exam retakes** Under no circumstance will a student be allowed to take an exam twice to improve their score.

• **Make-up Xronos HW:** There are no make-ups. Please reach out to me with plenty of advance notice if you're having Xronos issues. Technical issues the day before the homework is due is not an excuse.

• **Make-up discussion quizzes:** Missed discussion quizzes can be made up if appropriate documentation is provided. You must e-mail your instructor your documentation and receive a confirmation from them to make-up the quiz - **no exceptions**. If you miss a discussion quiz, then you should contact your instructor, NOT your TA, as soon as possible to arrange a make-up quiz. I will offer four make-up quiz periods throughout the semester. You will need to attend the quiz make-up period that is directly **AFTER** the quiz you missed. You may show up at ANY time during the periods listed below, but please allow yourself at least 20 minutes for your visit. Remember, you can only make up a quiz with an excused absence. Simply not going to discussion class is not a reason warranting a make-up quiz. **When you attend the make-up quiz period, you will need to show me your e-mail approval for which quiz number you are making up. Typically this means showing the contents of the approval e-mail on your phone to the proctor. You will not be permitted to take a make-up quiz without the course coordinator's approval.** The make-up quiz period dates are:

TBD

TBD

TBD

TBD

**Incomplete**

Students who are currently passing a course but are unable to complete the course because of illness or emergency may be granted an incomplete grade of I which will allow the student to complete the course within the first two weeks of the following semester. See the policy on <http://www.math.ufl.edu/fac/incompletes.html>. If you meet the criteria, you must contact the course coordinator before finals week to be considered for an I. An I only allows you to make up your incomplete work, not redo your work.

**In-person section grading scheme**

Xronos Homework (3 drops): 10%

Lecture Quizzes (3 drops): 10%

Discussion Quizzes (2 drops): 10%

Midterm Exam Average (3 mid-term exams): 45%

Final Exam: 25%

**Online sections grading scheme**

Xronos Homework (3 drops): 15%

Lecture Quizzes (3 drops): 15%

Midterm Exam Average (3 mid-term exams): 45%

Final Exam: 25%

Your final grade will rounded to the nearest hundredth and a letter grade will be given using the following grading scale:

**Grading Scale**

90.00-100 A	87.00-89.99 A-	84.00-86.99 B+	80.00-83.99 B
77.00-79.99 B-	74.00-76.99 C+	67.00-73.99 C	64.00-66.99 C-*
60.00-63.99 D+	57.00-59.99 D	54.00-56.99 D-	0-53.99 E

\***Note** A grade of C- DOES NOT give Gordon Rule or General Education credit!

For those take the S-U option: 67.00-100 S 0.00-66.99 U

Approval of the S-U option must be obtained from your instructor. The deadline for filing an application with the Registrar and further restrictions on the S-U option are given in the Undergraduate Catalog.

For a complete explanation of current policies for assigning grade points, refer to the UF undergraduate catalog:

[catalog.ufl.edu/ugrad/regulations/info/grades.aspx](http://catalog.ufl.edu/ugrad/regulations/info/grades.aspx)

**NOTE: We will not review disputed points at the end of the semester. All grade concerns must be settled within one week of the return of the paper.**

Please refrain from reaching out at the end of the semester to ask for your grade to be rounded up or to inquire about extra assignments or opportunities. There are hard cutoffs and deadlines for all assignments for a reason. Given the volume of students in this course, it is not feasible to give out extra work/assignments once the semester has ended.

### **Extra Credit**

Each midterm exam has 105 points on it but is taken out of 100 points. The final exam has 110 points on it but is taken out of 100 points. Because of this, inherent in each exam are bonus points. There are also extra credit discussion boards worth two points each. There is one of these boards for each exam period. I will discuss discussion boards more in class.

### **Free Help**

In addition to attending your discussion section regularly and visiting your discussion leader, lecture, or the course coordinator, during their office hours, the following aids are available.

- The Math Help Center in Little 215 is open for drop-in assistance with homework Monday through Friday from 9:30 to 4:00. It is staffed by mathematics graduate students and undergraduate assistants. Please note that this space is not designed for intense one-on-one tutoring, but rather as a resource for quick questions and explanations. You should not expect the staff to help you if you have not at least begun your homework and have specific questions. Moreover, they absolutely will not assist you with quizzes or any other such work.
- The Teaching Center Math Lab, located in SE Broward Hall, is a tutorial service staffed by trained math and science students to provide help with your calculus questions and homework. Tutors will be glad to provide guidance on specific problems after you have attempted them on your own. You may want to attend different hours to find tutors with whom you feel most comfortable. You can also request free one-on-one tutoring.

The teaching center tutors hold reviews on the evenings before each exam. They also provide videos of review and sample test problems. Check the webpage, [teachingcenter.ufl.edu](http://teachingcenter.ufl.edu), for a map of the location, tutoring hours, and test review dates and locations. Additional practice exams and video tutorials may be found here: <https://academicresources.clas.ufl.edu/vsi/>. **All students are encouraged to use the teaching center.**

- Office of Academic Support offers free one-on-one and small group tutoring sessions to an UF students. See <http://oas.aa.ufl.edu/tutoring.aspx> for details.
- Textbooks and solutions manuals are located at reserve desks at Marston Science Library.
- Private Tutors: If after availing yourself of these aids, you feel you need more help, you may obtain a list of qualified tutors for hire at [www.math.ufl.edu](http://www.math.ufl.edu). Search "tutors".
- The Counseling Center provides a variety of resources for mental health and well-being to students as well. Go to <https://counseling.ufl.edu/>

#### **Calculators**

Calculators are **NOT** permitted on exams and discussion assignments. Please avoid using a calculator on homework as it will not help you prepare for the exams.

#### **Cell Phones**

Cell phones must be turned off (not on vibrate) before coming to class. Use (defined as having one physically in your hand) of a cell phone during a test or quiz will be considered contact with another person and will be viewed as a form of academic dishonesty because I cannot be assured in such a circumstance that you have not taken a picture of the test/quiz or sent a text message to someone. As a result, **all infractions will be reported to the Dean of Students Office.** Wait until after you have left the room and are finished with the test/quiz to use it.

#### **Other distractions**

While attending lecture, please ensure that your cellphone is on silent and that alarms are turned off. Please be respectful and attentive during lecture. Do not disturb those around you with excessive talking. You will be asked to leave the classroom if you are repeatedly disruptive during class.

#### **Students with Learning Disabilities**

Students requesting class and exam accommodations must first register with the Dean of Students Office Disability Resource Center (DRC), [www.dso.ufl.edu/drc/](http://www.dso.ufl.edu/drc/). That office will provide a documentation letter via email to the course coordinator. This must be done as early as possible in the semester, **at least one week before the first exam**, so there is adequate time to make proper accommodations.

**COVID Policy**

In response to COVID-19, the following recommendations are in place to maintain your learning environment, to enhance the safety of our in-classroom interactions, and to further the health and safety of ourselves, our neighbors, and our loved ones.

- If you are not vaccinated, get vaccinated. Vaccines are readily available and have been demonstrated to be safe and effective against the COVID-19 virus. Visit [one.ufl.edu](http://one.ufl.edu) for screening / testing and vaccination opportunities.
- If you are sick, stay home. Please call your primary care provider if you are ill and need immediate care or the UF Student Health Care Center at 352-392-1161 to be evaluated.
- Course materials will be provided to you with an excused absence, and you will be given a reasonable amount of time to make up work.

**Diversity and Inclusion**

The Mathematics Department is committed to diversity and inclusion of all students. We acknowledge, respect, and value the diverse nature, background and perspective of students and believe that it furthers academic achievements. It is our intent to present materials and activities that are respectful of diversity: race, color, creed, gender, gender identity, sexual orientation, age, religious status, national origin, ethnicity, disability, socioeconomic status, and any other distinguishing qualities.

**Academic Honesty Guidelines**

All students are required to abide by the Academic Honesty Guidelines which have been accepted by the University. The academic community of students and faculty at the University of Florida strives to develop, sustain and protect an environment of honesty, trust, and respect. Students are expected to pursue knowledge with integrity. Exhibiting honesty in academic pursuits and reporting violations of the Academic Honesty Guidelines will encourage others to act with integrity. Violations of the Academic Honesty Guidelines shall result in judicial action and a student being subject to the sanctions in paragraph XIV of the Student Code of Conduct. The conduct set forth hereinafter constitutes a violation of the Academic Honesty Guidelines (University of Florida Rule 6C1-4.017).

The Mathematics Department expects you to follow the Student Honor Code. We are bound by university policy to report any instance of suspected cheating to the proper authorities. You may find the Student Honor Code and read more about student rights and responsibilities concerning academic honesty at the link [www.dso.ufl.edu/sccr/](http://www.dso.ufl.edu/sccr/).

**In-Class Recording**

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student

## **Evaluations**

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

## Important Spring 2024 Academic Dates and Deadlines

Classes Begin	Monday, January 8
Drop/Add	Monday, January 8 - Friday, January 12 (11:59 PM)
Withdrawal deadline (full refund)	Friday, January 12 (11:59 PM)
My Birthday	Tuesday, January 16
Withdrawal deadline (25% refund)	Friday, February 2
Drop deadline (no refund)	Friday, April 12
Classes end	Wednesday, April 24

### Holidays (no classes)

MLKJ Day	Monday, January 15
Spring Break	Saturday, March 9 - Sunday, March 17

Note: Information in this syllabus is subject to change. Any changes will be clearly announced in class or through e-mail.

### Tentative Schedule

Week	Monday	Tuesday	Wednesday	Thursday	Friday
1	January 8 Intro and L1 - L2 (Precalc Review)	January 9  Meet Your TA	January 10  L2 - L3 (Precalc Review)	January 11  Meet Your TA	January 12  L3 - L4 (Precalc Review)
Due		No Quiz		No Quiz	
2	January 15  Holiday	January 16	January 17  L5 - Limits Introduction	January 18	January 19  L6 - Limits Continued
Due		Quiz 1: L1 - L4		Quiz 1: L1 - L4	
3	January 22  L7 - Continuity and IVT	January 23	January 24  L8 - Indeterminate Forms	January 25	January 26  L9 - The Derivative
Due		Quiz 2: L5 - L6		Quiz 2: L5 - L6	
4	January 29  L10 - The Derivative as a Function	January 30	January 31  Review for Exam 1 <b>Exam 1 (L1 - L10)</b>	February 1	February 2  L11 - Derivatives of Power and Exponential functions
Due		Quiz 3: Attendance Quiz	Xronos 3	Quiz 3: Attendance Quiz	
5	February 5  L12 - Product Rule and Quotient Rule	February 6	February 7  L13 - Rates of Change	February 8	February 9  L14 Derivatives of Trig. Functions
Due		Quiz 4: L11		Quiz 4: L11 - L12	
6	February 12  L15 - Chain Rule pt. 1	February 13	February 14  L15 - Chain Rule pt. 2	February 15	February 16  L16 - Implicit Differentiation pt. 1
Due		Quiz 5: L12 - L14		Quiz 5: L13 - L14	
7	February 19  L16 - Implicit Differentiation pt. 2	February 20	February 21  L17 - Logarithmic Differentiation	February 22	February 23  L18 - Related Rates pt.1
Due		Quiz 6: L15 - L16		Quiz 6: L15 - L16	
8	February 26  L18 - Related Rates pt. 2 (review for exam 2 if time)	February 27	February 28  Review for Exam 2 <b>Exam 2 (L11 - L18)</b>	February 29	March 1  L19 - Linear Approximations and Differentials
Due		Quiz 7: Attendance Quiz		Quiz 7: Attendance Quiz	

Week	Monday	Tuesday	Wednesday	Thursday	Friday
9	March 4 L20 - Extreme Values, Fermat's Theorem, Critical Points	March 5	March 6 L21 - MVT and Rolle's Theorem	March 7	March 8 L22 - First Derivative Test
Due		Quiz 8: L19		Quiz 8: L19 - L20	
10	March 11 Spring Break	March 12 Spring Break	March 13 Spring Break	March 14 Spring Break	March 15 Spring Break
Due		No Quiz		No Quiz	
11	March 18 L23 - Concavity and Second Derivative Test	March 19	March 20 L24 - L'Hopital's Rule pt. 1	March 21	March 22 L24 - L'Hopital's Rule pt. 2
Due		Quiz 9: L20 - L22		Quiz 9: L21 - L22	
12	March 25 L25 - Curve Sketching	March 26	March 27 L26 - Applied Optimization pt. 1	March 28	March 29 L26 - Applied Optimization pt. 2
Due		Quiz 10: L23 - L24		Quiz 10: L23 - L24	
13	April 1 Review for Exam 3	April 2 <b>Exam 3 (L19 - L26)</b> Discussion: Review Only	April 3 L27 - Antiderivatives	April 4 Discussion: Review Only	April 5 L28 - Areas and Riemann Sums pt. 1
Due		No Quiz		No Quiz	
14	April 8 L28 - Areas and Riemann Sums pt. 2	April 9	April 10 L29 - The Definite integral pt. 1	April 11	April 12 L29 - The Definite integral pt. 2
Due		Quiz 11: L27 - L28		Quiz 11: L27 - L28	
15	April 15 L30 - The Fundamental Theorem of Calculus	April 16	April 17 L31 - Net Change	April 18	April 19 L32 - The Substitution Method for Integrals pt. 1
Due		Quiz 12: L29		Quiz 12: L29 - L30	
16	April 22 L32 - The Substitution Method for Integrals pt. 2 (Final review if time)	April 23 Review with TA for final	April 24 Review for Final Exam	April 25 Reading Day - No Classes	April 26 Reading Day - No Classes
