The organization of the class was great.

Her presentations were always clear, and she gave us examples to clarify the meanings of technical terms, so it was very helpful.

She always gives me help when I go to her with my questions.

I believe she is a wonderful instructor.

2. I loved this course. I am already fascinated by the topic of SLA, but Steffi really brought it to life with her deep knowledge, personal anecdotes, and emphasis of the most important information. The material I've learned in this course have really opened my mind and I look forward to learning more about this sphere of linguistics.

2. Stella is very knowledgeable and returned work absurdly fast!
Her lectures were interesting, but she sometimes was repetitive
as if she thought we couldn't get it the first time.
