

Major: Master's in Linguistics

Steffi is a fantastic instructor. Her syllabi are some of the best I have seen in all my years of academia. She is extremely knowledgeable and presents the material in a very clear, informative manner. She obviously cares about her classes and the success of her students. I enjoyed having Steffi as a professor and look forward to future classes with her.

# 1. Linguistics

2. The instructor was very knowledgeable. Work was always returned within a few days. My only complaint was that her deadlines were too squishy, for example: she would tell us to do something for class "as long as it wasn't too difficult," and then I would spend class helping those that just hadn't bothered to do the work.

1. MA LING

## Linguistics / ESL

I think Steffi was great! I learned a lot in this class and feel better prepared to begin work on a thesis. The class was very "hands on" which I think gave the students more experience and practical knowledge for when they begin their own academic papers.

1. Linguistics

2. hard working, focused, highly motivated. The sooner Ms Wulff receives funding, the better it will be for UNT.

The instructor is organized and well prepared for her classes. The lessons are student centered and designed to maximize content learning. I would recommend this course to other students. I like especially her syllabus design and the access to her blackboard page.
