

1. TESOL in Graduate Academic Certificate.

2. The instructor presented all the materials we should cover pretty clearly by using powerpoint slides and having us do TBT activities.

Also, she encouraged us to ask any questions that I was confused with and answered most of them clearly after I asked her the questions, so on the whole, I think she was really good at dealing with all the classes.

Steffi is extremely well versed in the subject and lectures clearly. All of her notes are kept online so material can easily be referenced and reviewed. She also focuses on making sure we are able to teach the material, not just make sure we understand the material.

MA - ESL

Certificate of TESOL (major)

Professor Wulff is <sup>a</sup> great teacher. she organized the class very clearly and patient to any question we propose.

## Linguistics

The instructor was always available, on time, presented material with clarity and had clear knowledge of what she was teaching!

Overall a very well-rounded professor.

1. MA ESL

2. I have been in this program and Dr. Wulff is the best prof. I have had. She is extremely organized as is her course, very willing to provide extra explanations if needed, and also amazingly knowledgeable in ~~the~~ the subject of English grammar. She's a wonderful model to us future teachers as well!

Major: TESOL

The instructor is timely and well-organized. She explains the material well and grades fairly. She returns tests ~~q~~ very quickly.

1. Linguistics / TESOL

2. Staff: is one of the best instructors I have ever had. She is always prompt, creates excellent study materials, knows the material thoroughly, and returns graded material back very quickly. Besides that, she is cordial and sympathetic to the students' concerns.

# MA Linguistics.

Dr. Wulff is an excellent teacher. She has an enormous intellect and extreme command of all subjects she presents. She is highly organized, on time, and prompt with feedback. She never fails to help any student. Great attribute to the department, we need to start a corpora class in the Spring.

MA,  
① Linguistics

② Steffi did an excellent job of presenting the course material in an engaging and fun way - quite a feat for a course topic of grammar! She was also very timely with responses and had the class schedule/materials organized to a T. I learned a great deal in this class that I will use for pet applications for my students in the future.

1. MA in TESOL

2. Dr. Wolff is not only very knowledgeable of the subject matter, she constantly goes above & beyond to make sure the entire class is clear on every aspect of her lectures. She always invites her students to utilize office hours, as well as puts multiple helpful resources on blackboard. She is always willing to meet and discuss or offer help on any area of Linguistics, not just her class. She is by far one of the best instructors I've ever had.

## M.A. Linguistics

Dr. Hulff is a great professor who is very organized and prepares her students very well for the exams. It was more challenging than I expected, but I felt like I learned more in this class than any other this semester.

# 1. LINGUISTICS

2. Professor Wulff is a fantastic instructor she is always on time to class, she sticks to her schedule, and is always willing to go into a more detailed explanation of the subject matter at hand. She knows the material she is teaching and everyone can clearly see that.

Steffi is extremely organized with materials, and her in-class demeanor is great, professional but still personal and welcoming to questions and comments. My only complaint would be the constant use of powerpoint, I feel that I personally learn better without it, when I am forced to take notes.

## MA ESL

Dr. Wulff is an excellent professor. She is always well prepared for class, very organized, and has a clear manner of communicating course materials. She always answers emails promptly and does whatever she can to help students, be that office visits, giving extra reading material, or pointing a student to another resource. She is also very knowledgeable about ~~the~~ Pedagogical Grammar & paces the class well.

## Linguistics Masters

Dr. Wulff is an AMAZING professor! I have the highest respect for her ability to structure and teach a class that is at an appropriate level, yet still understandable. The general consensus among the students is that she is our favorite professor to take a class with. Her syllabi far exceed any other in terms of clarity, organization, and expectation. She is always quick to respond to questions or comments and I have always found her to be fair. I really think Dr. Wulff raises the bar in how graduate classes should be conducted and I am glad to have had the privilege of learning about class structure from her.

## DMATESOL

2) Steffi put a great deal of effort into organizing and preparing for this class. All of the supplemental material was readily available on Blackboard and she followed the syllabus very well. She was always on time and well-prepared for each lecture. Steffi was almost always able to satisfactorily answer questions from students, and when she couldn't, she would try to get an answer from the rest of the class, or promise to look into it. Tests and assignments were always returned on time.

1. Major - TESL certificate / Master's in TESL

2. Dr. Wulf is a very hard-working instructor. She takes time to answer each and every question that students ask. Sometimes she explains things too fast though. During that times, I wish she would spend more time before jumping into another class. Other than that, she is a very nice teacher. I would definitely register for her classes again.

Major: Graduate Academic Certificate in TESOL

Dr. Stefanie Wulff is an excellent teacher. She is extremely well prepared for her classes and explains thoroughly all materials and contents of the class. She is constantly asking if there are any questions. Homeworks are returned with plenty of feedback to us. I have benefited very much from her course because she has organized it very effectively. Her grading policies are also very well explained and well organized and her tests' contents always agree with the material that was covered during classes. I wish I had many more teachers like Dr. Wulff, since this would guarantee a very successful education for me.
