

UF Graduate Student TOPOLOGY SEMINAR

Fall-2012

- September 5. Sergii Kutsak "Obstruction theory and deformations of maps of complexes into skeleta"
- September 12. Sergii Kutsak "Obstruction theory and deformations of maps of complexes into skeletal.II"
- September 19. Sergii Kutsak "Obstruction theory and deformations of maps of complexes into skeletal.III"
- September 26. Rob Newton "LS category and minimal models. Introduction."
- October 3. Rob Newton "Rationalization of spaces"
- October 10. Rob Newton "Minimal models"
- October 17. Rob Newton "LS category of rational spaces"
- October 24. James Maissen "Hilbert-Smith Conjecture in dimension three."
- October 31. James Maissen "Hilbert-Smith Conjecture in dimension three.II"
- November 7. Tulsi Srinivasan "Category Weight and the LS-category.I"
- November 14. Tulsi Srinivasan "Category Weight and the LS-category.II"
- November 28. Tulsi Srinivasan "Category Weight and the LS-category.III"

Spring-2013

- January 23 Sergii Kutsak "On classification of Lie algebras."
- January 30 Sergii Kutsak "On classification of Lie algebras.II"
- February 6 Sergii Kutsak "On classification of Lie algebras.III"
- February 13 Sergii Kutsak "On classification of Lie algebras.IV"
- February 20 James Maissen "Examples of p-Adic transformation groups".
- March 13 Rob Newton "Category and Generalized Hopf Invariants"
- March 20 Rob Newton "Category and Generalized Hopf Invariants.II"
- March 27 Rob Newton "Category and Generalized Hopf Invariants.III"
- April 3 Tulsi Srinivasan "Cohomology of groups"
- April 10 Tulsi Srinivasan "Cohomology of groups.II"
- April 17 Fred Byrd "Expanding graphs".
