

'I know and agree that it is my responsibility to know the syllabus and abide by the course policies stated in the syllabus. I promise to start the online assignments early and complete them in time. If I wait to start the assignments and run into any last minute emergencies/difficulties that cause me to miss the due date, I will be out of luck. No make up will be granted'.

I promise to check and verify my grades and I will resolve any grade issues within 1 week after they are available in Canvas, in WebAssign or in the Weekly Clicker scores report sent to my UF email. I understand that I can not ask for any points after 1 week.

I promise to register my clicker as soon as I have used it successfully in lecture. I understand there will be substantial grade penalty if I wait past the March 3rd deadline to register. I understand that I will forfeit all my clicker points if my clicker is not registered by 4/19 even if it means the difference of passing the course.

I promise to verify all the grade recording in Canvas and resolve any grade recording issues with my TA between April 20 – April 24. I understand that there is absolutely no discussion of grade issues past April 25, even if it means the difference of passing the course.'

I promise not to ask for anything I can do to improve my grades in the course because I understand that no extra credit opportunities will be granted to any individual beyond what is available for the entire class.

I promise to work hard daily and utilize the abundant resources available to me to resolve any math difficulties I may have and get the most out of the class.
