Course Description and Objectives

This course introduces students to the history, development, and contemporary forms of environmental politics in Florida. In order to do this, universal concerns addressed on the federal and global scale are also considered and evaluated. Florida is one of the most remarkable states in the United States, and the world, for studying environmental politics. From America's War on Water to the recent efforts to save the Everglades, Florida's history shows all levels of government constantly interacting and attempting to shape its environment to meet the values and desires of current residents.

Environmental policies are shaped by a number of concerns and functions of government – politics, citizen engagement, administration and planning. This class will overview the basic logistic and normative concerns that arise in environmental policies. Government is constantly shaping and regulating our environment; yet, unlike many other policy areas, there are active interest groups on both sides of the debate fighting for influence. At the same time, federalism plays an interesting effort in how Florida environmental politics plays out because forces on the local, federal and global scale are also working to shape environmental concerns.

The primary learning objectives are for students to:

- Understand early environmental practices and concerns.
- Develop a solid foundation of how American institutions shape the development, and implementation, of environmental policies.
- Begin to assess the goals and effectiveness of environmental policies.

Class Participation/Attendance

Students are expected to do the readings, attend class, and participate in class discussions. My lectures will be organized around the topics and readings found in the schedule outlined below. Lectures will include interactive discussion of the core themes of the readings. Students should **read the assigned literature before class** in order to participate.

You are responsible for the content of all classes, including issues raised in the spontaneous class discussions. Attendance may be checked at random throughout the semester. Also, note that class participation accounts for 10% of your grade, so missing classes will negatively influence your final grade. As a matter of mutual courtesy, please let the instructor know when you're going to be late, when you're going to miss class, or if you need to leave early. Please try to do any of these as little as possible. If you must miss a class, please request notes from your classmates prior to contacting me. I do not share my powerpoint slides, except under extenuating circumstances. Throughout the semester I may need to cancel class for on-campus interviews with universities. If I must cancel an additional day (other than the dates listed below), I will post a powerpoint and video lecture on Canvas to discuss the material for the day.

Class Debates

The course will have a series of debates throughout the semester (8 debate days with 4-5 students participating in each debate). All students are expected to participate in one debate, where they will assume the identity of a political figure that is a major proponent or opponent on the debate topic. Debate days and identities are selected at the start of the semester. In addition to participating in the debate, students are expected to write a 400-600 word paper (due 2 days before the day of their debate), where they will provide a brief overview of their political figure's involvement in the topic, as well as a detailed overview of their policy stance. **Students are expected to bring in evidence from current events, scholarly articles or reputable news sources to support the arguments made in their paper and during the debate.** Do not rely on talking points from CNN or Fox News, and wikipedia is not allowed.

Students are expected to attend all debates and are required to submit one question to the discussant (Mr. Sellers). The paper is worth 5% of your final grade and participation in the debate is worth 10%, for a total of 15% of your final grade. A more detailed explanation of what is expected from debate participants is provided on Canvas.

Essays

Students are expected to write two short essays. These essays are intended to stimulate student engagement with the content and to prepare students for upcoming exams. The paper should be between 1,250-1,500 words (double-spaced, Times New Roman, 1 inch margins) and must include a References page (not part of the word count) if outside sources are utilized.

Essays must be submitted on Canvas by 11:59 pm on the due date. Any assignments submitted after midnight will be treated as late regardless of an excused attendance (submission is online and can be done early). Grades and comments will be returned via Canvas in the grades section. Each essay is worth 10% of your overall grade, which accounts for 20% of your final grade.

A more detailed explanation of what is expected from these essays and how to write a good paper is provided in the files section on Canvas. Note that Turnitin evaluates all submissions for plagiarism. Be sure to cite any and all sources that you draw from. Any plagiarism will be given a 0 for the assignment, and will be submitted to the University for Disciplinary Review.

Exam 1 and Exam 2

There are two exams – Exam 1 (midterm) and Exam 2 (not cumulative). Both exams will test your knowledge of the material covered in the lectures and in the assigned readings. The exams will consist of 40 multiple choice questions. Exam 1 is worth 25% of your final grade; Exam 2 is worth 30% of your final grade.

Make-up Exams, Missed Classes and Late Papers

It is expected that no students will miss any exams or classes. No make-up exams or participation points will be possible unless due to university excused absences, which will require documentation and must be brought to Mr. Sellers' attention **prior** to the class that you know that you will miss. An unexcused absence on an exam or a debate results in a grade of 0%. Essays not turned in by their due date will incur a grade reduction of 10% every day after the deadline (and will not be accepted if it is more than 2 days late). Since essays are submitted through Canvas, this applies to all students (even those with excused absences). No planned opportunities for extra credit exist in this course.

Summary of Grading

Class Participation/Attendance	10%
Class Debate	15%
Essays	20% (2 worth 10% each)
Exam 1	25%
Exam 2	30%

Course Grades

Final grades will be assigned based on the scale below:

90% - 100%	A	70% - 75.9%	C
88% - 89.9%	A-	68% - 69.9%	C-
86% - 87.9%	B+	66% - 67.9%	D+
80% - 85.9%	B	60% - 65.9%	D
78% - 79.9%	B-	58% - 59.9%	D-
76% - 77.9%	C+	57.9% or less	E

Unless a computational error has been made, grades will not be changed after the end of the semester. Only in the rarest of circumstances will I grant an Incomplete ('I').

Academic Dishonesty

For University's honesty policy regarding cheating and use of copyrighted materials, see: <http://www.dso.ufl.edu/judicial/procedures/honestybrochure.php>

Written assignments will be checked for plagiarism against published works, other papers submitted by classmates at the current and previous semesters and internet pages using Turnitin, which is UF's plagiarism detection software. It is expected that submitted work for individual assignments will solely reflect the student's own efforts. Be sure to cite all sources.

Accommodations for Students with Disabilities: If you require a classroom accommodation because of a disability, you must first register with the Dean of Students Office (<http://oss.ufl.edu/>). The Dean of Students Office will send documentation directly to all of your instructors. The College is committed to providing reasonable accommodations to assist students in their coursework.

Counseling and Student Health

Students may occasionally have personal issues that arise in the course of pursuing higher education or that may interfere with their academic performance. If you find yourself facing problems affecting your coursework, you are encouraged to talk with an instructor and to seek confidential assistance at the University of Florida Counseling Center, (352) 392-1575, or Student Mental Health Services, (352) 392-1171. Visit their websites for more information: <http://www.counsel.ufl.edu/> or <http://www.health.ufl.edu/shcc/smhs/index.htm#urgent>.
