MAS 5312: Introduction to Algebra 2, Spring 2017 – Course Syllabus

Instructor: Dr. Richard Crew
Department of Mathematics,
University of Florida
404 Little Hall
Office phone: 352-294-2300
rcrew@ufl.edu

Classroom and meeting time: LIT 207, MWF3

Introduction. This is the second semester of the Mathematics Departments first year algebra sequence, intended to prepare the student for the first year exams in algebra. The general format of the course will be the same as in the first semester: weekly homework, three hour exams during the semester, no final exam. The text, as always, is Dummit and Footes Abstract Algebra, 3rd edition. Topics covered: rings and ideals, vector spaces and linear algebra, modules, finitely generated modules over a principal ideal domain, and the elementary theory of fields. Specifically, this is chapters 7-9 and parts of chapters 10-12. If time permits we will cover some applications to linear coding theory and number theory. There will be a brief reconsideration of some topics from the first semester.

Course Format and Grading. The course grade will be based on four hour exams during the semester and weekly homework assignments. The total homework grade will account for 20% of the total course grade, as will each of the four exams.

Late homework will not be accepted without a valid medical excuse.

Course grades will be given on the usual scale: A, 90% or above; B, 80% up to 90%; C, 70% up to 80%; D, 60% up to 70%; E, below 60%. This may be modified slightly after the second midterm exam. Here are the current UF policies on assigning grade points:
https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx

Course Policies. If you miss a class, it is your responsibility to find out what happened, and whether any homework was assigned, or any announcements made. Except in the case of documented medical emergencies, makeup tests will only be given if they are arranged in advance with the instructor. Most cases will require a valid medical excuse. This attendance policy is consistent with university regulations on attendance:
https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx

Students needing arrangements for disabilities should contact the Dean of Students
https://www.dso.ufl.edu/drc/ Once registered, the student will be given a letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Students are expected to provide feedback on the quality of instruction by completing online evaluations:
https://evaluations.ufl.edu/evals/Default.aspx
Typically this process takes place during the last weeks of semester. The results of the evaluations are available when they are tabulated: https://evaluations.ufl.edu/results/
