1. Introduction

1a. Course Content

College algebra, functions, coordinate geometry, exponential and logarithmic functions, and trigonometry. This fast-paced course is designed as a review of algebra and trigonometry to prepare the student for calculus. If you feel this course will be too fast paced, you can take it over two semesters by taking MAC 1140 Precalculus Algebra and then taking MAC1114 Trigonometry. You have until the end of add/drop (first week of the semester) to change your schedule.

A minimum grade of C (not C-) in MAC 1147 satisfies four hours of the general education requirement and also satisfies the pure math portion of the state Writing/Math requirement. Note: A student can receive at most four credits for taking both MAC 1147, and MAC 1140 or MAC 1114, and at most five credit hours for taking MAC 1147, MAC 1140, and MAC 1114. Students who successfully complete this course (C or better) can advance directly to MAC 2311, Calculus 1 (for engineers and scientists), or into MAC 2233, Survey of Calculus.

If your goal is to take MAC 2233, Survey of Calculus (for business majors), then you might want to talk to your advisor about taking MAC 1140, Precalculus Algebra, instead of this course (which includes trigonometry) since there is no trigonometry requirement for MAC 2233.

Students taking this course for general education credit or the pure math portion of the Math requirement, and who do not need precalculus for their major or as preparation for calculus, might consider taking MGF 1106 or MAC 1105. For more information on math courses and math advisors go to http://www.math.ufl.edu/.

1b. Prerequisites

A minimum score of 50% on the ALEKS exam is suggested.

This course assumes prior knowledge of intermediate algebra (Algebra 2) and trigonometry. Students should be able to do arithmetic without a calculator.

MAC 1147 begins with a short review of high school algebra topics (appendices A1 – A7). You should already be competent in working this material.

1c. Required Materials

  - You may use either the e-book or a hard copy.
  - The solutions manual is NOT required.
- A valid WebAssign access code.
  - WebAssign provides a three-week grace period to use the online homework system before you must purchase an access code.
- You should always use [https://www.webassign.net/ufl/login.html](https://www.webassign.net/ufl/login.html) to login to WebAssign (and then your Gatorlink login info as directed). Once at the site, click on the login on the left side. Don’t use Internet Explorer as it does not always work properly.

### There are several purchase options:

- Purchase WebAssign access code and/or the textbook from the book publisher at [http://www.cengagebrain.com/course/1720904](http://www.cengagebrain.com/course/1720904)
  - Purchase the textbook and WebAssign access codes together for $101.98 for the custom UF paperback book, access to the e-book, and a WebAssign access code; or
  - $50.00 for access to the e-book and a WebAssign access code.

  Note: At this site it lists WebAssign as the 1st edition. This is fine. If you purchase the access code elsewhere I don’t think they call it any edition. Also, when they send you the access code in the email, they refer to it as a pin code. Yes, they make it confusing!

- Purchase the textbook and/or WebAssign access code at a bookstore or elsewhere.
  - Either the UF custom 9th edition or the complete 9th edition may be used. If you purchase a new textbook, a WebAssign access code might (or might not) come with it, so please be aware.
  - Purchase a WebAssign access code directly from WebAssign.
  - Prices will vary.

- Copies of the book and the solutions manual are also available for in-library use at the reserve desk at UF Smathers Library West and the Marston Science Library.

#### 1d. E-Learning Canvas

Canvas is located at [https://elearning.ufl.edu](https://elearning.ufl.edu); use your Gatorlink username and password to login. You can find your grades, announcements, lecture outlines, free help information, etc., at this site. You are responsible for verifying that your grades are accurate. **You have one week after a score has been posted to contact your TA if you believe there has been a grading or a recording error.**

#### 1e. Lectures

The lecture presentations are an important aspect of the learning process. The lecture provides the main presentation of the course material. You are responsible for learning the material missed due to an absence. Lecture outlines can be printed...
from Canvas. It is suggested that you read the book, attend lecture or watch the pre-taped video, do the corresponding book homework and the WebAssign Homework, and then take the WebAssign Quiz.

You may print the lecture outlines which can be found on Canvas under Course Materials or you can purchase them at Target copy Center at 1412 West University Avenue for about $18.

1f. Calculator Policy

A calculator may be used on WebAssign homeworks and WebAssign quizzes, but NOT on discussion quizzes nor on exams.

1g. Discussion Sections

Discussion sections meet once a week (either Tuesday or Thursday, depending on the section in which you are registered) give you a valuable opportunity for open discussion of the lecture material and assigned problems in a smaller class setting. A significant portion of the points that determine your grade are earned in discussion class. If necessary, twice during the semester you may attend a different period of your TA’s discussion class. Go to www.math.ufl.edu/courses to see when and where your TA teaches.

Your main resource person is your discussion leader, a teaching assistant (TA) in the mathematics department. He or she is available during office hours (or by appointment) to answer your questions about the course material. Your TA is responsible for grading/recording your discussion quizzes, homework, free response on tests, and lecture participations. You must retain all returned papers in case of any discrepancy with your course grade. As mentioned above, you should check Canvas regularly and consult with your discussion leader if you have any questions about recorded grades. All grade concerns must be taken care of within one week of receiving the score. Your grade is subject to being raised or lowered if there is a recording error, computational error, bubbling error, “padding” error, etc.

If you have concerns about your discussion class which cannot be handled by your TA, please contact the course coordinator, Professor Tornwall, in Little 374, tornwall@ufl.edu (use Canvas email).

1h. Help (free)

♦ Your main resource person is your teaching assistant (TA) in the mathematics department. He or she is available during office hours to answer your questions about the course material. You may also contact the course coordinator, Professor Tornwall, during her office hours for help, or any of the MAC 1147 TAs.
In addition to attending your discussion section regularly and visiting ANY MAC1147 teaching assistant, lecturer, or the course coordinator, during their office hours, the following aids are available.

- The Teaching Center Math Lab, located at SE Broward Hall, offers free informal tutoring. You may want to attend different hours to find the tutors with whom you feel most comfortable. Go to www.teachingcenter.ufl.edu to find their hours. You can also request free one-on-one tutoring.
  - The Little Hall Math Lab in room 215.
  - Supplemental Instructor (SI) is provided by the Teaching Center. Check your tab bar on Canvas's home page for a link to the SI.
- Textbooks and solutions manuals are located at the reserve desk at the Marston Science Library and Smathers Library West.
- Private Tutors: If after availing yourself of these aids, you feel you need more help, you may obtain a list of qualified tutors for hire at www.math.ufl.edu. Search “tutors”.
- For help resolving technical issues (computer problems, Gatorlink, etc.) contact the UF Computing Help Desk at http://helpdesk.ufl.edu, 352-392-help.
- The Counseling Center has some informative information on developing math confidence. Go to http://www.counseling.ufl.edu/cwc/Developing-Math-Confidence.aspx for information on math confidence and information on joining the Academic Confidence Group

- Contact information for the Counseling and Wellness Center: http://www.counseling.ufl.edu/cwc/Default.aspx, 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

- Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.
1i. Success

Success in MAC 1147 depends largely on your attitude and effort. Keeping up with the material is critical. Most students find it beneficial to work daily on the material as opposed to saving it all for one day. It is not effective to sit and copy notes without following the thought processes involved in the lecture. For example, you should try to answer the questions posed by the lecturer. Students who actively participate have greater success.

Be aware that much of the learning of mathematics at the university level takes place outside of the classroom. You need to spend time reviewing the concepts of each lecture before you attempt homework problems. It is also important to spend some time looking over the textbook sections to be covered in the next lecture to become familiar with the vocabulary and main ideas beforehand so that you will be better able to grasp the material presented in lecture. You should expect to spend at least 12 hours per week working on this course – four in class hours and eight hours outside of class.

It can also be very helpful to study with a group. This type of cooperative learning is encouraged, but be sure it leads to a better conceptual understanding. You must be able to work through the problems on your own. Even if you work together, each student must turn in his or her own work, not a copied solution, on any collected individual assignments.

1j. Students with Disabilities

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, www.dso.ufl.edu/drc/) by providing appropriate documentation. After the accommodation letter is given to Professor Tornwall, you will receive accommodations. Students with disabilities should follow this procedure as early as possible in the semester since the accommodations are not retroactive.

1k. Academic Honesty

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.
2. Testing

The first four exams are at 8:30 p.m. See the course calendar for the dates. The cumulative final is during finals week. Room locations will be posted on Canvas prior to the exams.

- Students are responsible for material covered in the lecture notes, including practice problems at the end of some lectures, all assigned book homework problems, and all assigned WebAssign material.
- There are sample exams under the Modules link on Canvas. Also, sample exams are available from the Teaching Center one week prior to the exam.
- You should bring to each test only* the following:
  - Your UF Gator One Card.
  - Soft lead pencils.
  - Knowledge of your section number.

*It is suggested that you do not bring anything of value to the test since you are not allowed to take items such as backpacks to your seat.

- **NO CALCULATORS ARE PERMITTED.** All electronic devices must be put away. This includes phones. Scratch paper will be provided.
- The Test Form Code, as well as your UF ID, and name must be encoded correctly or you will lose points. You must also take the test in your assigned test location or you will lose points on your test.
- No one will be admitted to the test 30 minutes after the starting time of the test. No one will be permitted to leave the test until 30 minutes after the stated start time.

3. Grading

3a. Course Grade

The course is based on 500 points accumulated as follows:

- Web Tour (in Canvas) 1 point (0.2%)
- Calendar and Syllabus Quiz (in Canvas) 2 points (0.4%)
- Contract (in Canvas) 1 point (0.2%)
- Self-evaluation (in Canvas) 1 point (0.2%)
- Book HWs (3@10 pts, for a max of 20 pts) 20 points (4%)
Discussion Quizzes (best 8 of 10 @ 10 pts) 80 points (16%)
Online WA HWs (33 @ 1 pt, max. of 30) 30 points (6%)
Online WA Quizzes (best 10 of 13 @ 2 pts) 20 points (4%)
Exams (best 3 of 4 @ 80 pts) 240 points (48%)
Cumulative Final Exam 105 points (21%)

Add your bonus points, then use the scale below to determine your final letter grade. The course grade is determined by the number of points you have, not by the percentage, and will be strictly enforced.

A  = 450-500 points (90%)
A - = 435-449 points (87%)
B+  = 420-434 points (84%)
B   = 400-419 points (80%)
B - = 385-399 points (77%)
C+  = 370-384 points (74%)  For information on dropping courses and withdrawals go to https://catalog.ufl.edu/ugrad/current/regulations/info/drops.aspx#drop
C   = 350-369 points (70%)
C - = 335-349 points (67%)
D+  = 320-334 points (64%)
D   = 300-319 points (60%)
D - = 285-299 points (57%)
E   = below 285 points  For information about UF grades and grading policies go to https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx

3b. Course Introduction Quizzes

The Web Tour Quiz, the Calendar/Syllabus Quiz, and the Contract are to make sure you understand what is expected of you in this course. You will find these assignments on Canvas under Assignments. They are due at the beginning of the semester.

3c. Self-evaluation

The Self-evaluation which is found in Canvas is after Exam 2. Its purpose is to let you know your approximate standing in the class. See the calendar for the due date.

3d. Textbook Homework

The text assignments on page 13 represent the minimum number of problems you should do in each section and serve as a basis for your questions in your discussion section. Homework must be done neatly and work must be shown for credit. You do not need to copy the problem from the book. Homework will be checked for completeness and a few problems will be graded for accuracy. The work should be your own and not copied from the solutions manual as this is a violation of the honesty code. Homework will be collected three times during the semester. See the
calendar for collection dates. Some homework problems suggest the use of a graphing calculator. These are designed to help you visualize important concepts and to reinforce the mathematical processes involved. The use of a calculator when doing homework is not required. **Calculators are not permitted on quizzes nor on exams.**

3e. **Discussion Class Quizzes**

These will be administered in the discussion section the last 10-15 minutes of class by your discussion leader. Quizzes will be based on the previous lectures and homework assignments. See the calendar for more information. **If you feel there is a grading error or posting error on Canvas, you must discuss it with your TA within one week.** No aids may be used on the discussion quiz.

3f. **WebAssign Homeworks and Quizzes**

If you purchased a new book, the WebAssign access code probably came with the book. If you did not purchase a new book then you will need to purchase the access code. See section 1c for information on purchasing the access code.

To access WebAssign go to [http://webassign.net/ufl/login.html](http://webassign.net/ufl/login.html) (You must use this full url.) and use your Gatorlink login and password. **Don't use Internet Explorer since it does not always work properly.** Click on the login on the **left** side. If you have previously purchased the access code you will now enter it. If you have not yet purchased the access code, you can use the free grace period for the first few weeks.

You must score a minimum of 70% on the WebAssign Homeworks before you can take the corresponding WebAssign Quiz. You have 10 attempts and unlimited time on each WebAssign Homework. You have three attempts and one hour on each WebAssign Quiz. See WebAssign for the specific due dates. It is suggested that you do the WebAssign Quizzes prior to their due dates.

There is a two-day **extension** on WebAssign homeworks and and a one-day **extension** on WebAssign quizzes. The extension button will be visible after the due date. Click Past Assignments (at the bottom of the current assignments), then click the extension link. There is no penalty for using an extension. There is no limit on the number of assignments that you can use the extension request. However, if you often use the extension, then you need to work on time management because you are falling behind.

**DO NOT wait until the last minute, since if you encounter a computer glitch or if WebAssign is down, YOU will be out of luck!**

The best attempt for each WebAssign quiz and homework is the score that is counted. The WebAssign homeworks and quizzes are open-book and open-note. You may have someone help you with the WebAssign homeworks, but NOT with the quizzes.
If you feel your answer is correct, but WebAssign marks it wrong, see your TA during office hours or email your TA. **You have one week from the due date to take care of this.**

For questions on how to use WebAssign contact WebAssign Support or post on the Canvas Discussion board for help from your classmates. Often just using a different browser solves the problem.

3g. **Lecture Participation and/or Video Checkpoint Bonus Points**

There are bonus points available for either attending lecture or watching the pre-taped videos by the due date. You may choose to earn your bonus points by attending the live lectures, watching the pre-taped videos, or a combination of the two. However, you may earn a maximum of only eight Lecture Participation/Video Checkpoint bonus points.

Lecture Participation points will be given in lecture four times during the semester. They are worth two points which will be added to your total points. You may use your book, your notes, work in groups, or get help from the lecturer. To receive credit you must put your TA’s name and your section number on your paper. There are no make-ups.

Video Checkpoint bonus points are earned by watching the videos and answering the check point questions before the due date. The bonus questions are found on Canvas under Assignments. The due dates are 10 pm the day of the live lecture. There are no extensions available.

3h. **Make-up Policies (See section 3a to see which scores are dropped.)**

All make-up work must be completed by Monday, April 17 at noon.

- **Exams** - If you have a conflict due to a UF sponsored event or an assembly exam in another course, you need to bring your documentation to Professor Tornwall in Little 374 at least one week (otherwise 5 point penalty) before the exam to sign up for the make-up which will be given within one week of the test date.

  If you miss for any other valid reason you must notify Professor Tornwall within a week of the exam (otherwise 5 point penalty). To be eligible for this make-up you must receive at least four points from the Lecture Participation/or Video Checkpoint bonus points by the end of the semester. This make-up will be given at the end of the semester.

- There is a 10 point penalty for missing the final due to negligence.

**If other classes are scheduled during the exam time,** University policy states that the assembly exam takes precedence over the evening class and the evening class instructor must provide make-up work and cannot penalize students who miss because of an assembly exam.

- **Discussion quizzes** - There are no make-ups, unless,
a) You are participating in a UF sponsored event, for which you must bring your documentation at least one week prior to Professor Tornwall.

b) You miss at least three discussion quizzes for which you have valid, documentable reasons for your absences. You will be allowed to make up the excused absences that are in excess of two. To be eligible for this make-up you must receive at least four points from the Lecture Participation/or Video Checkpoint bonus points by the end of the semester. Bring your documentation to Professor Tornwall in Little 374 within one week of your third discussion quiz absence.

c) You miss because of a religious holiday. You must notify Professor Tornwall within the first three weeks of class if you will be missing discussion class due to a religious holiday.

d) You miss because of a court-ordered or military obligation – see Professor Tornwall.

Homework collection – There are no make-ups, unless you are participating in a UF sponsored event. In this case you must bring your HW to your TA prior to the collection day along with your documentation.

If you are not able to be in discussion class that day, you can turn your HW in early to your TA or have someone take it to class for you. You must turn in ALL the HW from the lectures that were on the test. There is a two-point penalty for not being in discussion class.

WebAssign, Lecture Participation, Video Checkpoints - There are no make-ups.

Absences and Make up Work: “Requirements for class attendance and make-up exams, assignments, and other work are consistent with university policies that can be found at: https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx. Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.

3i. Incomplete/Concerns/Complaints

Incomplete: A grade of I (incomplete) will be considered only if you meet the Math Department criteria which are found at http://www.math.ufl.edu/. If you meet the criteria you must contact Professor Tornwall before finals week to be considered for an I. An I only allows you to make up your incomplete work, not redo your work.

Concerns/Complaints: If you have concerns/complaints about the course you may voice your concerns to the course coordinator, the Mathematics Department Associate Chair, and then the ombud at https://www.dso.ufl.edu/documents/UF_Complaints_policy.pdf.
4. **Instructor Evaluations**

   Students are asked to provide feedback on the quality of instruction in this course based on ten criteria. These evaluations are conducted online at [https://evaluations.ufl.edu](https://evaluations.ufl.edu). Evaluations are typically open during the last two or three weeks of the semester, but students will be given specific times when they are open. Summary results of these assessments are available to students at [https://evaluations.ufl.edu/results](https://evaluations.ufl.edu/results).

5. **Textbook Homework Assignments**

   You should read the textbook sections covered in each lecture before coming to lecture. After each lecture, review your notes and the text to make sure you understand the main ideas prior to working the exercises.

   If you have questions about the reading or homework exercises, you may ask your TA (or the course coordinator during office hours).

   You should complete each assignment before the next lecture, since the material in each lecture often builds on previous concepts.

---

**L1 Real Numbers**

Reading: Student Guide, Appendix A.1

Exercises (A.1), page A11: 6, 7, 9, 12, 16, 17, 19, 25, 27, 35, 39, 40, 43, 50, 53, 55, 61, 65, 72, 73, 80

---

**L2 Exponents and Radicals**

Reading: Appendix A.2

Exercises (A.2), page A23: 1, 4, 6, 7, 8, 13, 14, 19, 20, 26, 29, 41, 44, 50, 52, 56, 58, 60, 62, 64, 65, 72, 74, 75, 78, 81, 84

Additional exercise: Simplify the radical expression $\sqrt[3]{81x^7y^2} \cdot \sqrt[3]{36x^2y^2}$.

---

**L3 Polynomials and Factoring**

Reading: Appendix A.3

Exercises (A.3), page A33: 1, 2, 15, 19, 21, 23, 33, 35, 37, 39, 43, 45, 47, 52, 56, 61, 69, 76, 79, 89, 94, 103, 104, 107
**L4 Rational Expressions**
Reading: Appendix A.4
Exercises (A.4), page A42: 1, 2, 3, 4, 7, 12, 22, 30, 35, 44, 51, 54, 56, 60, 62, 66, 70, 78, 79, 81, 82

**L5 Solving Equations**
Reading: Appendix A.5
Exercises (A.5), page A56: 1, 3, 4, 10, 14, 19, 21, 26, 34, 38, 40, 42, 44, 50, 63, 70, 76, 78, 80, 84, 85, 86, 90, 92, 95, 100

Additional exercises: Find all real solutions and check your answers.

1. \[6x^{-2} + x^{-1} = 2\]  
2. \[8(m - 4)^4 - 10(m - 4)^2 + 3 = 0\]
3. \[(y + 3)^{2/3} - 2(y + 3)^{1/3} - 3 = 0\]  
4. \[4(x + 1)^{1/2} - 5(x + 1)^{3/2} + (x + 1)^{5/2} = 0\]
5. \[\frac{1}{x - 3} + \frac{3}{x + 3} = \frac{6x}{x^2 - 9}\]  
6. \[\frac{x^2 - 9}{x^2 - 2x - 3} = \frac{3}{2}\]
7. \[x^8 - 4x^4 - 5 = 0\]  
8. \[3x^4 + 10x^2 - 25 = 0\]
9. \[\sqrt{x + 7} + 3 = \sqrt{x - 4}\]  
10. \[2x = 1 - \sqrt{2 - x}\]
11. \[x = \sqrt{15 - 2x}\]  
12. \[(5x^2 - 6)^{1/4} = x\]
13. \[\sqrt[3]{4x + 3} = \sqrt[3]{2x - 1}\]  
14. \[(2x - 1)^{2/3} = x^{1/3}\]
15. \[\sqrt{x} - (3)\sqrt[4]{x} - 4 = 0\]  
16. \[x^{1/2} + 3x^{-1/2} = 10x^{-3/2}\]
17. Factor \(x^6 - 2x^4 + x^2\) completely and find all of the real solutions of the equation \(x^6 - 2x^4 + x^2 = 0\).

**L6 Linear Inequalities and Algebraic Errors**
Reading: Appendices A.6 and A.7
Exercises (A.6), page A64: 4, 7, 9, 15, 28, 38, 40, 53, 54, 58, 69, 76, 78, 81, 82, 83, 85, 87, 89, 91, 94, 95, 98, 102, 103, 109
Exercises (A.7), page A72: 15, 16, 22, 26, 31, 33, 43, 49, 55, 64, 67, 72
L7 Rectangular Coordinates and Graphs

Reading: Sections 1.1 and 1.2

Exercises (1.1), page 8: 1, 2, 3, 4, 14, 24, 32, 51, 54, 56, 58

Note: The correct answer for 58(a) is \((x_0, -y_0)\).

Exercises (1.2), page 19: 3, 4, 5, 10, 26, 28, 29, 31, 34, 38, 43, 47, 48, 71, 74, 76, 79, 90

Additional exercises:

1. Find the equation of a circle in standard form with center at the point \((-3, 2)\) and tangent to the line (touching the line) \(y = 4\).

2. Given the circle \(x^2 + (y + 1)^2 - 1 = 8\), find its center, radius, and intercepts. (Hint: Sketch the graph.)

L8 Linear Equations and Functions

Reading: Sections 1.3 and 1.4

Exercises (1.3), page 31: 1, 2, 3, 4, 5, 6, 9, 11, 14, 19, 23, 30, 39, 45, 51, 53, 55, 65, 67, 70, 74, 87, 89, 90, 91, 93, 94, 96, 99, 101, 102, 103, 104, 105, 112

Exercises (1.4), page 44: 1, 2, 4, 7, 11, 12, 24, 29, 32, 36, 40, 47, 48, 57, 58, 59, 61, 63, 64, 68, 71, 73, 78, 82, 85, 86, 88, 89, 90, 93

L9 Analyzing Graphs of Functions

Reading: Section 1.5

Exercises (1.5), page 56: 1, 2, 3, 4, 5, 6, 7, 9, 11, 13, 18, 20, 23, 33, 37, 55, 56, 62, 66, 71, 72, 73, 83, 85, 88a, 93, 94, 95, 96, 98

L10 A Library of Functions and Transformations of Functions

Reading: Sections 1.6 and 1.7

Exercises (1.6), page 65: 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 35, 36, 39, 43, 47, 48, 49, 50

Exercises (1.7), page 72: 1, 2, 3, 4, 5, 9, 11, 13, 14, 15, 16, 17, 19, 20, 21, 23, 25, 27, 29, 31, 33, 39, 47, 50, 51, 53, 55, 57, 71, 73, 74, 75, 76, 78, 80
L11 Combinations of Functions
Reading: Section 1.8
Exercises (1.8), page 81: 3, 9, 13, 17, 18, 23, 25, 31, 34, 35, 37, 42, 43, 45, 51, 55, 59, 60, 61

L12 Inverse Functions
Reading: Section 1.9
Exercises (1.9), page 90: 1, 2, 3, 4, 5, 6, 14, 19, 21, 27, 29, 33, 35, 37, 39, 45, 49, 50, 57, 61, 63, 64, 65, 70, 72, 73, 76, 79, 84, 86, 88, 92, 93, 95, 96, 97, 101

L13 Quadratic Functions
Reading: Section 2.1
Exercises (2.1), page 120: 3, 5, 6, 7, 9, 11, 15, 22, 32, 43, 44, 48, 50, 58, 68, 74, 75, 76, 77, 80, 83, 87, 88, 89, 90, 92

L14 Polynomial Functions of Higher Degree and Division of Polynomials
Reading: Sections 2.2 and 2.3
Exercises (2.2), page 133: 1, 2, 3, 4, 5, 7, 9, 10, 11, 12, 13, 14, 15, 17, 19, 21, 23, 27, 29, 61, 63, 65, 69, 71, 76, 78, 80, 82, 85, 87, 97a, b, 100a, b, 105, 107, 108, 109, 110, 111, 112, 113, 115
Exercises (2.3), page 144: 2, 3, 4, 5, 6, 8, 12, 24, 34, 38, 48, 55, 60, 67, 68, 84, 87, 90, 92, 95, 97

L15 Complex Numbers
Reading: Section 2.4
Exercises (2.4), page 152: 1, 2, 3, 4, 5, 6, 7, 9, 13, 17, 19, 25, 27, 36, 38, 42, 45, 47, 49, 51, 56, 60, 64, 65, 67, 69, 72, 81, 85, 87, 93, 94, 96, 97, 99

L16 Zeros of Polynomial Functions
Reading: Sections 2.5 and 2.6
Exercises (2.5), page 164: 2, 3, 4, 5, 6, 9, 11, 13, 15, 17, 20, 26, 30, 33, 46, 48, 50, 52, 56, 62, 63, 78, 99, 104, 113, 115, 116, 117, 118, 119, 120, 121, 122, 123, 128, 130, 131
Exercises (2.6), page 177: 2, 3, 7
L17 Rational Functions
Reading: Section 2.6
Exercises (2.6), page 177: 10, 13, 15, 21, 28, 29, 31, 34, 35, 38, 41, 42, 43, 44, 67, 73 a, b, 78, 80, 81, 82

L18 Nonlinear Inequalities
Reading: Section 2.7
Exercises (2.7), page 187: 1, 2, 3, 4, 7, 13, 15, 24, 28, 30, 35, 36, 37, 38, 46, 52, 53, 66, 74, 76, 78, 90

L19 Linear and Nonlinear Systems of Equations
Reading: Sections 7.1 and 7.2
Exercises (7.1), page 473: 3, 4, 8, 10, 12, 14, 16, 20, 23, 26, 30, 32, 38, 42, 56, 59, 66, 70, 71, 72
Exercises (7.2), page 484: 12, 16, 21, 22, 30, 31, 32, 33, 34, 42, 44, 49 a, c, 52, 62

L20 Exponential Functions
Reading: Section 3.1
Exercises (3.1): page 208: 5, 6, 13, 14, 15, 16, 17-22 all without a calculator, 23-26 all, 39-44 all without a calculator, 52, 54, 57 use calculator, 63 use calc., 65 use calc., 73, 74, 76, 78, 79, 84, 85

L21 Logarithmic Functions
Reading: Section 3.2
Exercises (3.2), page 218: 1-7 all, 9, 11, 13, 15, 17, 19, 25-28 all, 30, 32, 33, 37-40 all, 43, 45, 46, 48, 49, 52, 53, 56, 61, 63, 66, 68, 74, 76, 82, 83, 84, 88

L22 Properties of Logarithms
Reading: Section 3.3
Exercises (3.3), page 225: 4, 5, 6, 7, 15, 16, 18, 19, 21-37 all, 39, 41, 42, 43, 45, 49, 52, 54, 56, 57, 59, 60, 62, 64, 68, 73, 74, 75, 76, 78, 80, 84
L23 Exponential and Logarithmic Equations
Reading: Section 3.4
Exercises (3.4), page 235: 1, 3, 5, 7-17 all, 20, 22, 24, 26, 32, 36-62 even, 72-82 even, 87-90 all

L24 Exponential and Logarithmic Models
Reading: Section 3.5
Exercises (3.5), page 245: 1, 5, 8, 10, 14, 16, 21, 24, 26, 33, 34, 36, 44, 57

L25 Radian and Degree Measure
Reading: Section 4.1
Exercises (4.1), page 269: 1-7 all, 9, 12, 14, 16, 17-31 odd, 35, 38, 39, 42, 44, 52, 54, 55, 56, 57, 61, 62, 64, 66, 69-73 all

L26 Trigonometric Functions and the Unit Circle
Reading: Section 4.2
Exercises (4.2), page 277: 1-5 all, 8, 9-13 all, 18, 19, 20, 22, 23, 29, 32, 33, 35, 36, 38, 40, 49, 53, 54, 60, 61

L27 Right Triangle Trigonometry and Trigonometric Functions of Any Angle
Reading: Sections 4.3 and 4.4
Exercises (4.3), page 286: 1-5 all, 7, 11, 21, 23, 25, 27, 29, 43, 44, 50, 52, 54, 56, 57, 59, 61, 63, 64, 66, 67, 68, 69, 70,71, 72, 77, 78-85 all, 88
Exercises (4.4), page 296: 1-9 all, 11, 19, 20, 21, 22, 24, 28, 30, 31, 34, 36, 37, 39, 41, 43, 46, 48, 49, 51, 55, 56, 63, 66, 68,70, 74, 91, 96, 97, 103, 106

L28 Graphs of Sine and Cosine Functions
Reading: Section 4.5
Exercises (4.5), page 306: 1-5 all, 7, 18, 19, 21, 23, 25, 27, 29, 32, 35, 37, 43, 44, 48, 59, 61, 73, 76, 80, 83, 86, 88, 97, 102
L29 Graphs of Other Trigonometric Functions
Reading: Section 4.6
Exercises (4.6), page 317: 1, 2, 3, 5-14 all, 17, 21, 24, 28, 34, 37, 49, 62, 63, 85, 86, 87, 92

L30 Inverse Trigonometric Functions
Reading: Section 4.7
Exercises (4.7), page 326: 1, 2, 3, 4, 5-17 odd, 19 no calc, 20 no calc, 39, 40, 42, 46, 47-52 all, 54, 56, 58, 66, 70, 72, 74, 78, 80, 81, 83, 86, 97-102 all, 104a, 104b use calc, 108a, 108b use calc, 110-114 all

L31 Applications
Reading: Section 4.8
Exercises (4.8), page 336: 1, 5, 10, 16, 20, 22, 24, 26, 29, 33, 34, 36, 37, 40, 42, 46

L32 Using Fundamental Identities
Reading: Section 5.1
Exercises (5.1), page 355: 1-6 all, 8, 9, 10, 14, 15-20 all, 21-45 odd, 49, 53, 56, 57, 61, 63, 69, 71

L33 Verifying Trigonometric Identities
Reading: Section 5.2
Exercises (5.2), page 362: 1-8 all, 13, 16, 19, 27, 29, 33, 39, 41, 47, 59, 61, 64, 67, 68, 69, 71

L34 Solving Trigonometric Equations
Reading: Section 5.3
Exercises (5.3), page 371: 3, 4, 5, 9, 11, 13, 17, 19, 23, 27-45 odd, 63, 65, 73, 85, 87
L35 Sum and Difference Formulas
Reading: Section 5.4
Exercises (5.4), page 379: 1-7 all, 9, 11, 17, 27-41 odd, 45, 47, 53, 57, 63, 65, 69, 73, 81-84 all, 86

L36 Multiple-Angle and Product-to-Sum Formulas
Reading: Section 5.5
Exercises (5.5), page 389: 1-7 all, 9, 11, 15-27 odd, 33, 37, 41, 45, 65, 68, 69
