COURSE DESCRIPTION
Drawing on the cluster of disciplines that make up the Humanities and the considerable resources at UF in support of the Humanities, this course inquires into the very nature and experience of being human. Applying multi-disciplinary and cross-cultural approaches to explore the question “What is the good life?,” students consider the cost of the good life, examine how people have chosen to live as members of local and global communities, and analyze conceptions and expressions of beauty, power, love, and health.

COURSE OBJECTIVES
Students are provided instruction in multi-disciplinary approaches used in the humanities to study the good life through an analysis of juxtaposed works of art, architecture, history, literature, music, religion, and philosophy.

• **Content Objectives:** Students will identify how different people from different societies across time conceptualize the good life, what meaning and value individuals ascribe to the lives that they live or want to live, and what are the choices, costs, and benefits of the good life.

• **Communication Objectives:** Students will communicate concepts, expressions, and representations of the good life clearly and effectively in written and oral form as stated in the rubrics of the course.

• **Critical Thinking Objectives:** Students will analyze the conflicts and tensions that arise between the individual and the community, the normative and the exceptional, culture and nature, needs and wants, pleasure and happiness, short-term benefits and long-term consequences of the pursuit of the good life. They will critically evaluate the costs and benefits of the good life in order to make sound decisions.

COURSE FORMAT
Elements common to all sections include the required “gateway” readings, the three common activities, and the course assignments. In addition, there are "pillar" readings assigned by the individual instructors. The faculty select pillars to complement the gateways, while also drawing on their own areas of interest and expertise to make the course a unique experience for the students in their sections.

COMMON ACTIVITIES
This course expects students to become actively engaged in experiences unique to UF. As such, course requirements include attending the Good Life Performance at the Phillips Center, seeing the Good Life exhibit at the Harn Museum, and watching the Common Lecture. More information on these activities can be found on the course Sakai site.
